CANNED FOODS WEIGHTS

Suggested arbitrary weights of contents to be used on labels to comply with the various State and National Pure Food Laws, as agreed upon by the Co-operative Committee of the National Wholesale Grocers Association and the National Canners Association. ∴ ∴ ∴

The following weights allow for reasonable tolerances; in other words, cans reasonably well filled will weigh more than the weight expressed below. The following legend is recommended. "Contents" to be expressed ....Pounds....Ounces.
